A wild, Jodorowsky-style graphic novel from Moldy Peaches cofounder Adam Green In War and Paradise, a graphic novel by creative polymath and Moldy Peaches founder Adam Green (born 1981), the internet meets the Middle Ages and satire becomes the most logical response to our own wildly confusing, nonsensical world. A spiritual sequel to the 2016 cult film Adam Green's Aladdin, the story follows our hero Pausanias, a geographer of the soul, alongside a cast of unconventional characters through a kaleidoscopic landscape of absurdism, illustrated in full color by musician Toby Goodshank, animator Tom Bayne and Green himself. Released concurrently with Green's tenth album Engine of Paradise, this book cuts social commentary with laughter and imagination, all reflected through the artist-musician's characteristically quirky style.

A group biography of seven enduring and beloved games, and the story of why—and how—we play them. Checkers, backgammon, chess, and Go. Poker, Scrabble, and bridge. These seven games, ancient and modern, fascinate millions of people worldwide. In *Seven Games*, Oliver Roeder charts their origins and historical importance, the delightful arcana of their rules, and the ways their design makes them pleasurable. Roeder introduces thrilling competitors, such as evangelical minister Marion Tinsley, who across forty years lost only three games of checkers; Shusai, the Master, the last Go champion of imperial Japan, defending tradition against “modern rationalism”; and an IBM engineer who created a backgammon program so capable at self-learning that NASA used it on the space shuttle. He delves into the history and lore of each game: backgammon boards in ancient Egypt, the Indian origins of chess, how certain shells from a particular beach in Japan make the finest white Go stones. Beyond the cultural and personal stories, Roeder explores why games, seemingly trivial pastimes, speak so deeply to the human soul. He introduces an early philosopher of games, the aptly named Bernard Suits, and visits an Oxford cosmologist who has perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, *Seven Games* is a story of obsession, psychology, history, and how play makes us human.

THE #1 NEW YORK TIMES BESTSELLER Millions of readers literally defined their lives through Gail Sheehy's landmark bestseller *Passages*. Seven years ago she set out to write a sequel, but instead she discovered a historic revolution in the adult life cycle. . . People are taking longer to grow up and much longer to die. A fifty-year-old woman--who remains free of cancer and heart disease-- can expect to see her ninety-second birthday. Men, too, can expect a dramatically lengthened life span. The old demarcations and descriptions of

adulthood--beginning at twenty-one and ending at sixty-five--are hopelessly out of date. In *New Passages*, Gail Sheehy discovers and maps out a completely new frontier--a Second Adulthood in middle life. "Stop and recalculate," Sheehy writes. "Imagine the day you turn forty-five as the infancy of another life." Instead of declining, men and women who embrace a Second Adulthood are progressing through entirely new passages into lives of deeper meaning, renewed playfulness, and creativity--beyond both male and female menopause. Through hundreds of personal and group interviews, national surveys of professionals and working-class people, and fresh findings extracted from fifty years of U.S. Census reports, Sheehy vividly dramatizes these newly developing stages. Combining the scholar's ability to synthesize data with the novelist's gift for storytelling, she allows us to make sense of our own lives by understanding others like us. *New Passages* tells us we have the ability to customize our own life cycle. This groundbreaking work is certain to awaken and permanently alter the way we think about ourselves. "SHEEHY CLEARLY STATES IDEAS ABOUT LIFE THAT HAVE NEVER BEFORE BEEN AS CLEARLY STATED." --Los Angeles Times Book Review "AN OPTIMISTIC ANALYSIS OF ADULT DEVELOPMENT IN PESSIMISTIC TIMES. . . It is grounded in the economic and psychological realities that make adult life so complex today." --The New York Times Book Review

The inspiring, dramatic, and heartwarming true account of an escaped convict and his wife of thirty-five plus years who never knew his secret, which captured the imaginations of millions on *Humans of New York*. Bobby and Cheryl Love were living in Brooklyn, happily married for decades, when the FBI and NYPD appeared at their door and demanded to know from Bobby, in front of his shocked wife and children: "What is your name? No, what's your real name?" Bobby's thirty-eight-year secret was out. As a Black child in the Jim Crow South, Bobby found himself in legal trouble before his 14th birthday. Sparked by the desperation he felt in the face of limited options and the pull of the streets, Bobby became a master thief. He soon found himself facing a thirty-year prison sentence. But Bobby was smarter than his jailers. He escaped, fled to New York, changed his name, and started a new life as "Bobby Love." During that time, he worked multiple jobs to support his wife and their growing family, coached Little League, attended church, took his kids to Disneyland, and led an otherwise normal life. Then it all came crashing down. With the drama of a jailbreak story and the incredible tension of a life lived in hiding, *The Redemption of Bobby Love* is an unbelievable but true account of building a life from scratch, the pain of festering secrets in marriage, and the unbreakable bonds of faith and love that keep a family together.

"A man will be imprisoned in a room with a door that is unlocked and opens inward; as long as it does not occur to him to pull rather than to push." —Ludwig Wittgenstein In *Taking a Stand*, Matt Schweppe presents us with a basic choice in the form of a metaphor—imprisonment or freedom. Chapter after chapter, he shows us the “prison of the mind,” what happens when we “plead guilty,” the ways in which we “sentence” ourselves to a small life, and what we can do to experience a “jailbreak.” Matt is calling us to live an incredible life. “Are you alive?” he asks. Or are you on death row? “The possibility for an incredible life exists. Will you choose it?” asks Matt. —Excerpt from the Foreword by Robert Holden, PhD.
