Optimize Your Hiring With Paycor's Recruiting Metrics Spreadsheet It's a crime for any modern recruiting or HR department to be hiring without an applicant tracking system. However, (if you're still building that business case for new recruiting technology), we're here to help you in the meantime.

This practical "how to" guide integrates a comprehensive, interdisciplinary review of literature, alongside a wealth of the authors' combined research experience, into a framework for behavioral health and other investigators concerned with successful participant recruitment and retention in intervention and evaluation research studies. The content applies across disciplines, provides numerous real-world and hypothetical examples, analyzes complex issues and ethical concerns, and provides investigators with concrete, practical tools for planning, budgeting, assessing, engaging in, analyzing, and reporting their studies' participant recruitment and retention efforts. The book's focus is on application to intervention and evaluation research, and the authors present a great deal of information of contemporary relevance, including demonstrating an awareness of the opportunities and limitations of engaging research participants in an electronic age. In these ways, Participant Recruitment and Retention in Intervention and Evaluation Research stands out from the fragmented published literature concerning participant recruitment and retention and from research methodology textbooks, many of which dedicate very little attention to the practical issues involved in successfully recruiting and retaining study participants in studies of these types.

Will someone contact me as positions become available in my area of interest? What is your data migration process? Have you used other applicant tracking systems before? What is your preferred title? The first thing you want to ask yourself when looking to purchase an ats is, what features does the ats need to have in order for your recruitment efforts to be successful? Defining, designing, creating, and implementing a process to solve a challenge or meet an objective is the most valuable role... In EVERY group, company, organization and department. Unless you are talking a one-time, single-use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different way to look at it?' This Self-Assessment empowers people to do just that - whether their title is entrepreneur, manager, consultant, (Vice-)President, CXO etc... - they are the people who rule the future. They are the person who asks the right questions to make Applicant Tracking System investments work better. This Applicant Tracking System All-Inclusive Self-Assessment enables You to be that person. All the tools you need to an in-depth Applicant Tracking System Self-Assessment. Featuring 902 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which Applicant Tracking System improvements can be made. In using the questions you will be better able to: - diagnose Applicant Tracking System projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in Applicant Tracking System and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the Applicant Tracking System Scorecard, you will develop a clear picture of which Applicant Tracking System areas need attention. Your purchase includes access details to the Applicant Tracking System self-assessment dashboard download which gives you your dynamically prioritized projects-ready tool and shows your organization exactly what to do next. You will receive the following contents with New and Updated specific criteria: - The latest quick edition of the book in PDF - The latest complete edition of the book in PDF, which criteria correspond to the criteria in... - The Self-Assessment Excel Dashboard - Example pre-filled Self-Assessment Excel Dashboard to get familiar with results generation - In-depth and specific Applicant Tracking System Checklists - Project management checklists and templates to assist with implementation INCLUDES LIFETIME SELF ASSESSMENT UPDATES Every self assessment comes with Lifetime Updates and Lifetime Free Updated Books. Lifetime Updates is an industry-first feature which allows you to receive verified self assessment updates, ensuring you always have the most accurate information at your fingertips.

Have you ever looked at your latest personal computing device and wondered what comes next? Imagine a world where your next personal computing device is the last one that you would ever need to buy. Where you would never need to worry about operating systems, software patches, or viruses. Where you always had enough processing power, memory, storage, and top-of-the-line graphics. Where you could access all of the very best software applications, regardless of their platform. Where you had a constant connection to all your favourite digital services, and your battery lasted for days, perhaps even weeks, of full-on use. Sounds good, doesn't it? Well, this is the world of the Stream Tone. A world that does not exist in some far off future; this could be, figuratively speaking, our world a mere five minutes from now. All that is needed to make it a reality is the creative convergence of certain technologies that are already available and in use today. Personal computing is changing from an old world of local services provided by local devices to a new world of remote Web-based services provided by cloud computing-based data centres. THE STREAM TONE: The Future of Personal Computing? explores, in some detail, what might be required to make a comprehensive move to this exciting new world, and the many benefits that move could bring. This book not only attempts to make a thorough evaluation of the technology ecosystem that will be required to realise this future but also considers many of the implications of such a move. Along the way, it also discusses hundreds of currently-available technologies and how they could be used to help build this future. This book has an easy-going style that does not assume that the reader is some sort of egg head or rocket scientist. It should, therefore, be suitable for almost anyone that has an interest in what might come next in the world of personal computing. Most of the subject matter is explained in enough detail that even a technical novice should be able to understand what is being discussed. Website: www.TheStreamTone.com

The world of work has changed. People in previous generations tended to pick one professional path and stick to it. Switching companies every few years wasn't the norm, and changing careers was even rarer. Today's career trajectories aren't so scripted and linear. Technology has given rise to new positions that never before existed, which means we are choosing from a much broader set of career options-and have even more opportunities to find work that lights us up. However, we don't discover and apply for jobs the same way anymore, and employers don't find applicants the way they used to. Isn't it about time we had a playbook for navigating it all? Kathryn Minshew and Alexandra Cavoulacos, founders of the popular career website TheMuse, offer the definitive guide to the modern workplace. Through quick exercises and structured tips, you will learn: · The New Rules for finding the right path: Sift through, and narrow today's ever-growing menu of job and career options, using the simple step-by-step Muse Method. · The New Rules for landing the perfect job: Build your personal brand, and communicate exactly how you can contribute and why your experience is valuable in a way that is sure to get the attention of your dream employer. Then ace every step of the interview process, from getting a foot in the door to negotiating your offer. · The New Rules for growing and advancing in your career: Mastering first impressions, the art of communication, networking, managing up and other "soft" skills - and make it obvious that whatever level you're at, you're ready to get ahead. Whether you are starting out in your career, looking to advance, navigating a mid-career shift, or anywhere in between, this is the book you need to thrive in the New World of Work.
